

Upon entering the AEI area from Callinstrasse, you'll notice an open area on your right where bikes are typically parked, go through it to find a door of the Callinstr. 36 building. Look to your left in front of the door; you'll see a circular electronic switch of few cm in radius, illuminated by green LED lights. Press it to open the door.

After the door opens, turn right. On your left side, you will find the stairs.

Head up to the second floor (in German conventions, this is referred to as the first floor)

After opening the door, turn left. Seminar Room 132+133 will be on your left.
